

What went well:

Committee stash, current polos, but we never usually get to wear them, committee zephyrs?

Aletta BCD dates – currently the Friday for Michaelmas but problems with Varsity trip. Issue unless we stress it really really early. Have been currently doing it the week before – useful in that more people tend to come. More people will then come the week before (Tom). Saturday is a better day for everyone's sanity. The Saturday for both the bumps dates

*Vote: Move forward: 9, Remain on 6<sup>th</sup>: 1, Abstention 2*

New battery for one of the cox boxes – order from all sport.

Budget considerations, splitting the budget into what can be spent (e.g Races etc...) and what automatically is spent. Shouldn't be limited by money in terms of races (Fran says money that's spent on races is money always well spent). Money for equipment allocation. Inventory to take place.

Coaches is always a big thing.

Advice from Ross, to work on smaller boat work for the men.

Coaching, longer term plans for how coaching on its going to work. Get the coaches together at the pub to discuss a longer term plan. *Flexible plans*

What we're currently raising for – one thing at a time (keep it simple). Walkthrough the college website on how to give to the boat club and on Facebook – keep it simple as possible. Reports back on how the giving is going and after we've completed the project.

Giorgio is doing summer rowing.

### **'Recruitment and Retention' – Final words of Tom**

#### **Actions**

Monday afternoon inventory 2pm – Ross, Kirk, Kieran, Radu, Mila, David and Morgan.

Procrastinate on the website.

Ross to change over bank account control by September. New battery for one of the cox boxes – order from all sport.

Kieran to have a handover and work, get into the BR website. Committee Stash – to come up with a design. Multiple voting until everyone gets annoyed by September

Aletta move forward to the Saturday preceding Fairbairns. Make sure she hasn't guessed the dates. Feb 29<sup>th</sup> 2020 is Lent bumps. (She has it wrong), May Bumps is correct. By September. Socials for the boaties to keep club bonding.

Kirk: Email to alumni anyone willing to coach - Alumni for sponsorship, Rachel Ancliff and Susie Clements. Interested in the novices as well. Weekend outings etc. Boat club data collection, to keep budding tutorial committee. Training camp – realistically Nottingham again.

Sponsorship: Mathworks?, Mike Gascoyne – Start ups?

Reasons they might want to bite:

1. Access to prominent level undergraduates in the country

2. Stuff on boats that compete nationally

3. Newsletter with access to >300 people in high level professions

Boat club reunion day (End of Lent) and Donor's dinner, ability to meet current dinners. – Take alumni out in boats

Marquee at Bumps

Trophy mass engraving of who won from ~2013

LBC: 1. Novice BBQ, 2. Handover document handover, 3. Try rowing day, 4. Fresher's squash to be sorted out. (Make sure there is a cox at these). Get everything booked and communicated. Coordinate to ensure the JCR and MCR can advertise it. Don't double book for MCR and JCR stuff. Really important to make sure people have the chance. Bribes (edible). Lots and lots of seniors. Emphasise kit on posts (Sportswear). Automatically start sticking them into outings. Planning for the tank. (*Fundraising? - bribery for fundraising*). Separate meeting. Rachel and potentially Giorgio (*underutilised*)? Whole club circuits – club bonding.

Mays novice drive – more work, after Easter Holidays. End of lents (Long term action point)

Angela: Coaching coxes session to be arranged with the other (^ Stick it on the end)

Captains – Mila and Daniel: Get in contact with the people, Coaching talk for Seniors in the club an evening with Stef/ others. Spreadsheets of people spare to row.

Radu: Looking towards more off-cam stuff for next year, and heading to more regattas treating more like M1 rather than lower boats.

Xanthe: Videos back to alumni to show how we spend their money. Fix stuff on the website.
